21 August 1990

Dianne R. Nielson  
Director - Div. of Oil Gas and Mining  
355 West North Temple - Ste. 350  
Salt Lake City, Utah 84180-1203

Dear Ms. Nielson:

The Mineral Policy Center (MPC) is a small, national, non-profit group studying the environmental effects of hardrock mining. As part of this study, we are compiling data on state laws and regulations governing these activities.

Please send us copies of the appropriate code and regulation sections that deal with mining and/or the effects of mining on the environment, including those pertaining to bonding, exploration, and reclamation. These should include water, air, and soil pollution regulations. Such information will be invaluable to us and to local groups who call on the Center for information and assistance.

If you would like to fax the information, feel free to do so at (202) 737-1875. If you have any questions, please contact me or Dan Horowitz at (202) 737-1872.

Thank you for your time and I look forward to hearing from you.

Sincerely,

*Clark Boyd*  
Clark Boyd
